FISH OILS WITHOUT FISH TASTE

# ESSENTIAL OMEGA-3™

CONCENTRATE OF DHA AND EPA  
FREE OF MERCURY AND CONTAMINANTS

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

**Andrew Lessman's ESSENTIAL OMEGA-3** is our ultra-pure, high potency blend of Omega-3 oils uniquely delivered with absolutely NO fishy aftertaste. Our Omega-3s exist in their most active, natural triglyceride form and NOT as inferior ethyl esters. Omega-3s are absolutely essential for our good health, yet they cannot be made by the body, so their benefits are only available from cold-water fish or a formula like **Essential Omega-3**. Research has shown that diets rich in Omega-3 oils are associated with superior heart, brain, circulatory and general health; yet sadly, the American diet delivers alarmingly low levels of these precious fatty acids. Our **Essential Omega-3** is a uniquely concentrated source of both fish and flaxseed oils, delivering our highest levels of **DHA** (Docosahexaenoic Acid) and **EPA** (Eicosapentaenoic Acid), as well as **DPA** (Docosapentaenoic Acid). Typical Omega-3 formulas focus on EPA, which is less costly to provide, whereas our Omega-3s target vital **DHA**, which is essential for brain and eye function. In fact, the highest functioning areas of the brain and the most critical parts of the eye (macula and retina) contain and require ultra-high levels of DHA. Although fish oil supplements have long been praised for their countless health benefits, they are equally well-known for their aftertaste and potential contaminants; however, our **Essential Omega-3** allows you to enjoy all the benefits of fish oil with NO mercury, NO contaminants, NO stomach upset and NO fishy aftertaste.
