

SUGGESTED USAGE: Take 1 capsule 1 to 4 times daily.

HOW IT WORKS: Chlorophyll is the green pigment that plants and algae use for photosynthesis. Some reports indicate that Chlorophyll supplements can act as an internal deodorant.* Scientific studies show that chlorophyll may help to support healthy cellular reproduction cycles and liver function, and can help to encourage proper detoxification mechanisms.*

CAUTIONS/INTERACTIONS: When taken orally, chlorophyll may alter the color of tongue, urine and feces and it may occasionally give diarrhea. Alfalfa may interact with immunosuppressants, drugs inducing photosensitivity, warfarin, and estrogens. If you are immunocompromised, taking immunosuppressants, drugs inducing photosensitivity, estrogens, or warfarin, consult your physician before taking this product.

This bottle contains an AGELESS® Oxygen Absorber to ensure freshness. Do not eat packet.

Natural color variation may occur in this product.
