

Suggested Usage: Take 1 softgel daily.

Propolis is a mixture of resins collected by honey bees from tree buds, sap and other plant sources and is used to seal small gaps in the beehive. The function of propolis is to reinforce the hive's integrity and stability, as well as to maintain its sanitary state. NOW® Propolis is collected by beekeepers from active, healthy hives and possesses a variety of bioflavonoids.

Caution: For adults only. Individuals who are allergic to bees, bee products, or bee pollen should not take this product. Not recommended for pregnant or nursing women. Consult physician if taking medication or have a medical condition. Keep out of reach of children.
