Discussion: Pantethine, a biological metabolite of pantothenic acid (vitamin B5), is a precursor to coenzyme A, a critical factor in supporting the healthy function of many cellular pathways such as cellular energy production, the normal synthesis of numerous sex and adrenal hormones, and neurotransmitters.*

Directions: Take 1 capsule 3 times daily with/without food, or as directed by a qualified health care practitioner.

Warning: Consult your physician if you are pregnant, lactating, if you have a medical condition, or if you're taking any medication. Keep out of reach of children.
