

400958-1M34

We prepare our Motherwort Extract from the leaf & flowering tops of *Leonurus cardiaca* plants which are **Certified Organically Grown**. To assure optimal extraction of Motherwort's bioactive compounds, the plants are hand-harvested while in full flower, are carefully shade-dried and cleaned of superfluous stem, and are then thoroughly extracted.

LIQUID HERBAL EXTRACT

MOTHERWORT

Leonurus cardiaca

Leaf & Flowering Tops
