

Best Free Lutein featuring FloraGLO® with Zeaxanthin contains high quality FloraGLO Lutein, a highly bioavailable, natural source of lutein extracted from marigold flowers, the most abundant source in nature. FloraGLO® Lutein is manufactured under a patented process (US patents RE40,912E, US RE40,931E, US RE40,938E and 5,648,564.)

Lutein is a major carotenoid found in human blood, with a high tissue concentration in the retina of the human eye. Lutein functions as a potent free radical scavenger in a number of tissues, including the eyes, skin, heart and lungs.* Zeaxanthin is the second major carotenoid found in the retina. Both lutein and zeaxanthin work synergistically to promote eye health.*

Helps maintain healthy vision*
Potent free radical scavenger*
