CHONDROITIN SULFATE 1200™

1,200MG CALCIUM CHONDROITIN SULFATE
100% SULFATE FORM ONLY

270 Easy-to-Swallow Capsules

Andrew Lessman's CHONDROITIN SULFATE 1200 provides the optimum potency and the ideal form (**All Sulfate** and **Sodium-Free**) of a key ingredient for the maintenance and repair of healthy joint tissue. Chondroitin is not a medicine that treats your joints, but a vital structural component of all healthy joint tissue, which is required to keep our joints functioning at their best as we age. Not surprisingly, the benefits of Chondroitin have also been shown to extend beyond joint tissue and are essential for the resiliency and flexibility of other “elastic” tissues in the body, such as the skin, arteries, veins and heart valves. Our Chondroitin formula contains only the **Sulfate** form of Chondroitin, which is the most active and research-proven form of this molecule. Also unique is our special form of Sodium-Free Chondroitin Sulfate, which entirely eliminates Sodium from all our joint formulations and instead provides the benefits of 100 mg of essential Calcium. No other body part endures more daily abuse than our joints and **Chondroitin Sulfate 1200** is the proper tool to help combat and repair the consequences of a lifetime of wear and tear. Every day, we place enormous demands on our joints and, just as Calcium is essential for bones, it only makes sense to provide the same basic, structural requirements to our joints with our gentle, yet ultra-high potency **Chondroitin Sulfate 1200**.
