

Doctor's Best High Absorption Iron with Ferrochel™ contains chelated iron to help increase bioavailability. Chelation helps iron to be optimally absorbed by our body, and is well-tolerated by the digestive system.*

Iron is an essential mineral that helps in the production of normal red blood cells. It is an important component of hemoglobin which carries oxygen throughout the body.*

Iron plays an important role in the metabolism of folic acid, which is important for fetal nervous system development.* Anemia in pregnant women has been linked to low birth weight and premature birth.* The most common cause of anemia is iron deficiency.*

Ferrochel™ Iron is chelated with bisglycinate amino acids, providing high absorption and increased tolerability*

Helps support the body's adequate iron supply*

Helps support immune health*

Helps support cell production*
