# CALCIUM INTENSIVE CARE™

Gentle Soluble Bioavailable Calcium  
Vitamin D3 and Boron

Dietary Supplement | **500** Easy-to-Swallow Capsules

**Andrew Lessman's CALCIUM INTENSIVE CARE** is a mild, natural formula designed to address the needs of all individuals to consume the Calcium and Vitamin D3 we require. This easy-to-swallow, ultra-mild and easy-to-absorb formula is ideal for everyone, particularly those who struggle with ordinary, rock-hard Calcium tablets. Calcium is one of the most abundant minerals on our planet, but it is sadly lacking from our diet. Making matters worse is the fact that Vitamin D is even more scarce than Calcium and, without adequate Vitamin D, we cannot absorb what little Calcium we consume. It is medically established that inadequate intake of Calcium and Vitamin D poses a substantial threat to the health of our bones and bodies. Plus, ordinary Calcium supplements are typically large, rock-hard tablets that are difficult to swallow, upsetting our stomach and not well-absorbed. Our **Calcium Intensive Care** comes in small, easy-to-swallow capsules containing an ultra-fine, super-soluble powder that is gentle even to the most sensitive stomachs. We confidently guarantee no chalky aftertaste and no stomach upset with our uniquely enjoyable and problem-free **Calcium Intensive Care**. We all know how vital these nutrients are at all stages of life but, as we get older, the minerals we need become more difficult to absorb. Our **Calcium Intensive Care** makes these vital nutrients not only easy to absorb, but allows us to do so without any risk of stomach upset.
