

SUGGESTED USE To achieve the optimum levels of both Glucosamine and Chondroitin established by the clinical research, consume five capsules daily with food. These five capsules can be taken all at once or divided throughout the day with food. This product is most effective as part of a healthy diet and active lifestyle, along with one of **ANDREW LESSMAN'S** multi-vitamin-mineral formulas. **For answers to questions about the use of this product call 800.800.1200.**

Andrew Lessman's GLUCOSAMINE with CHONDROITIN delivers the optimum potencies and ideal forms (**All Sulfate** and **Sodium-Free**) of the two key ingredients for the maintenance and repair of healthy joint tissue. This unique formula begins with clinically-established levels and ideal forms of the two most important and well-researched natural ingredients for joint health: **Glucosamine Sulfate** (1,500 mg) and **Chondroitin Sulfate** (1,200 mg). Glucosamine and Chondroitin have been the subject of thousands of published articles and extensive international recognition; however, they are not medicines to treat joint ailments, but more importantly represent the vital molecules that comprise the structure of all our joints – healthy or not. Glucosamine Sulfate is always the first line of defense for joint tissues, but unlike ordinary products, we refuse to use cheaper, unproven Glucosamine HCl (Hydrochloride). We only use the form of Glucosamine established in the scientific literature – Glucosamine **Sulfate**. Also unique is our special form of Sodium-Free Chondroitin Sulfate, which eliminates the Sodium present in other joint products. Our special Calcium Chondroitin Sulfate eliminates the risks of Sodium and instead provides the benefits of 80 mg of essential Calcium. Sadly, typical joint products use inferior sources of both Glucosamine and Chondroitin, which do not possess the research-established benefits of Glucosamine Sulfate and Chondroitin Sulfate. In short, both Glucosamine and Chondroitin, along with the Sulfur from their Sulfate forms provide three essential structural ingredients that are the vital “building blocks” or the very “bricks and mortar” of our joints. By providing these essential structural molecules in their optimum Sulfate forms and at their ideal potencies, we deliver maximum benefits to joint structure, health and function. No other body part endures more daily abuse than our joints and **Glucosamine with Chondroitin** delivers the proper tools at their proven levels and in their ideal forms to help combat and repair the consequences of a lifetime of wear and tear. Best of all, **Glucosamine with Chondroitin** is uniquely **All Sulfate, Sodium-Free and Additive-Free** making it unlike any joint product in the world.

This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

CONTAINS NO Milk, soy, yeast, corn, wheat, gluten, sodium, salt, sugar, fat, cholesterol, color, preservative or manufacturing additive.

CONTAINS NO ADDITIVES OF ANY KIND.

Supplement Facts

Serving Size 5 Capsules	Servings Per Container 72	
Amount Per Serving		%DV*
Vitamin C (as ascorbyl palmitate)	10 mg	17%
Calcium (from calcium chondroitin sulfate)	80 mg	8%
Potassium (from potassium glucosamine sulfate)	260 mg	7%
Glucosamine Sulfate	1,500 mg	†
as Potassium Glucosamine Sulfate	2,000 mg	
Calcium Chondroitin Sulfate	1,200 mg	†

* Percent Daily Values (%DV) are based on a 2,000 calorie diet.

† Daily Value not established.

Other Ingredients: Gelatin capsule.

CONTAINS an ingredient derived, purified and refined from the shells of shellfish (shrimp, crab and crawfish).
