

**SOURCE NATURALS®**

DIETARY SUPPLEMENT

**COENZYMATED™  
B-3**

**NICOTINAMIDE ADENINE  
DINUCLEOTIDE**

**25 MG SUBLINGUAL • 30 TABLETS**

## Supplement Facts

Serving Size 1 Tablet

	Amount Per Serving	%DV
Niacin (as inositol hexanicotinate	25 mg	125%
27 mg and nicotinamide adenine dinucleotide 25 mg)		

Other ingredients: sorbitol, mannitol, natural peppermint flavor, and magnesium stearate.

Nicotinamide adenine dinucleotide (NAD) is one of two main metabolically active forms of vitamin B-3. The other is NAD phosphate (NADP). NAD is a prominent coenzyme in the brain, where it helps to generate the massive energy that the brain requires for its normal function. NAD is necessary for many stages of converting food into energy and in alcohol metabolism.\*

### THE BENEFITS OF COENZYMATED™ SUBLINGUAL VITAMINS

In order for vitamins to be utilized by the body, they must first be converted into their active coenzyme forms. Source Naturals' COENZYMATED™ B-3 goes directly into your bloodstream in its active form, ready to go to work immediately. This avoids the loss that may occur not only during digestion, but during the liver's conversion process as well.

**Suggested Use:** 1 tablet daily. Place tablet under the tongue and allow to dissolve slowly, altering the position of the tablet to avoid prolonged contact with the same area.

**NOTE:** If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.
