

Overexertion at the gym, at work or at play can lead to fatigued muscles and sore joints.

Repair Gold™ contains Serrapeptase with Bromelain, Papain and additional enzymes known to support fatigued muscles and joints.* The enzymes work synergistically with the body's own mechanisms of renewal and may support the body's natural response to overexertion and strenuous activities.* The enzyme blend promotes joint comfort and healthy circulation to encourage accelerated muscle and tissue recovery.*

Recommended Use: 2 capsules two to three times daily on an empty stomach, one hour before or two hours after a meal. More may be taken as needed.

Thera-blend™ is an exclusive process that combines multiple strains of enzymes that work in specific pH levels, resulting in superior performance in the body.
