

SUGGESTED USAGE: As a dietary supplement, take 1 tablet daily, preferably with a meal, or as directed by your healthcare practitioner.

HOW IT WORKS: ProtoSorb™C is a unique formulation featuring Transport C-PLUS® Threonic Acid, which has been shown to enhance uptake of Vitamin C.* This buffered, non-acidic Vitamin C supplement also contributes Alpha-Lipoic Acid, a free radical scavenger known to help regenerate both Vitamin C and glutathione in the body.* Studies suggest that Alpha-Lipoic Acid may further promote the body's utilization of Vitamin C, by activating uptake into cells via the glucose transport pathways.* Bioflavonoids also synergistically participate at the cellular level to create a well-absorbed, highly biologically available Vitamin C supplement.* Vitamin C is required for the synthesis of collagen, a structural component of blood vessels, tendons, ligaments and bone.*

CAUTIONS/INTERACTIONS: Vitamin C may interact with oral estrogen medications, HMG CoA inhibitors, and blood thinning medications. Doses of >2000 mg Vitamin C per day may cause GI disturbances in sensitive individuals and may not be advisable for some people. Consult your healthcare practitioner if you take any prescription medications or have a medical condition before exceeding the recommended dosage for this product.
