

SUGGESTED USAGE: As a dietary supplement, take 2 capsules 1 to 4 times daily, or as directed by your healthcare practitioner.

HOW IT WORKS: Acetylcholine (ACh) is the primary neurotransmitter involved in memory formation, alertness, and muscle movement.* ACh production, however, tends to decrease with age. RememBRAIN™ is a combination of ingredients formulated to support healthy ACh production and function.* With clinically tested Memorzine™ Huperzine A, which helps to maintain ACh in the brain, Alpha-GPC, a bioavailable form of choline, and Phosphatidyl Serine (PS), which is critical for efficient signaling in nerve cells, RememBRAIN™ is a comprehensive formula, utilizing clinically relevant doses of Hup A and PS, that helps to support normal healthy ACh levels and neurological function.*

CAUTIONS/INTERACTIONS: This product may cause mild, but transient GI disturbance. The ingredients in this product may interact with scopolamine, acetylcholinesterase inhibitors, cholinergic, and anti-cholinergic medications. Consult your healthcare practitioner before taking this product if you are taking any of these medications, or if you have any cardiac or pulmonary conditions. Do not use if you are pregnant or nursing. For more information on this product go to www.protocolforlife.com/P3414

Do Not Eat Freshness Packet. Keep in Bottle.
