

"As a licensed and highly experienced Medical Doctor (MD), I've consulted over 150,000 people in my career. I've observed the considerable role that nutrition plays in health & wellness. Every formula of mine is borne out of substantial first-hand evidence-based clinical experience, extensive observation, post graduate education and research, in addition to long-term testing in an advanced healthcare setting to examine therapeutic efficacy. Glutathione has often been referred to as the "Master" antioxidant found in the body. It plays important roles in antioxidant defense, detoxification, nutrient metabolism, and regulation of cellular events including: gene expression, DNA protein synthesis, cell proliferation and apoptosis, signal transduction, cytokine production and immune response, and protein glutathionylation (which is now widely recognized as a significant mechanism in cell and tissue physiology). Glutathione deficiency has been shown in numerous research studies to contribute to oxidative stress, which plays a key role in aging and the development of numerous diseases including: cancer, heart attack, stroke, diabetes, Alzheimer's disease, Parkinson's disease, liver disease, optic atrophy, sickle cell anemia, HIV/AIDS and many more. Glutathione intake has been reported in the peer-reviewed scientific literature to demonstrate good skin-lightening effects in humans through its tyrosinase inhibitory activity. In proud of Snow White™ and I hope you enjoy it." -Dr. Farrah A.

Suggested Use:

As a dietary supplement, take one (1) to two (2) capsules with water once daily or as directed by a licensed health care professional.

KEEP OUT OF REACH OF CHILDREN. DO NOT USE IF SAFETY SEAL IS DAMAGED OR MISSING. STORE IN A COOL, DRY PLACE.

Warning:

Do not take this supplement if under the age of 18, pregnant or nursing a baby. Always consult with a medical professional before taking any new dietary supplement.
