

**Intestinal Movement Formula™** is a highly effective, yet gentle and non-habit-forming (when used as directed) herbal formula featuring the herbal purgatives rhubarb root and the latex sap from cape aloe (*Aloe ferox*) as well as other traditionally used herbs such as nopal cactus and ginger known for their laxative effects.\* These herbs promote evacuation of the bowels.\* The peppermint oil in peppermint leaf works to soothe the muscles of the intestines giving balance to the colon-contracting herbs.\* Other herbal allies thyme and oregano leaf additionally support healthy intestinal microflora in individuals with an already healthy microbiome.\* A sluggish bowel breeds toxicity that can adversely affect the health of the entire body. A healthy colon function is essential for living a healthy and happy life!
