

AMINOS

MILLECOR® AMINOS is a blend of 5000mg of Branched Chain Amino Acids and Glutamine for lean muscle and recovery. BCAAs are the most abundant amino acids found in muscle tissue and are the most readily absorbed group of amino acids. MILLECOR® AMINOS contains the ideal ratio of 2 parts Leucine to 1 part Isoleucine and Valine. In addition to the the 2:1:1 ratio, MILLECOR® AMINOS includes 1g of Glutamine for even more benefits.*

These amino acids increase protein synthesis and nitrogen retention which are both essential to building lean muscle. BCAAs are metabolized directly in the muscle and are considered "essential" because the body cannot build them from other compounds. Instead, they must come from diet or supplementation. Take your results to a whole new level with MILLECOR® AMINOS.*

DIRECTIONS: Mix 6.5 G (1 Scoop) in a shaker with 16-20 ounces of water. Adjust amount of water for taste preference. Best taken pre/intra/post-workout.

WARNING: Consult with a physician prior to use if you have any medical conditions. Do not use if pregnant or lactating.
