

Futurebiotics® Conjugated Linoleic Acid, or better known as CLA, supports healthy weight management.* CLA, which is an Omega-6 fatty acid commonly found in many foods, offers a variety of potential health benefits that are completely natural. Studies have shown that when dietary amounts of CLA are increased, CLA levels in body tissues increase, which can help decrease body fat while maintaining lean body mass. **Futurebiotics CLA 3000** delivers active CLA from safflower seed oil. In addition to being effective, research has shown CLA to be safe when used as directed.
