MAXIMUM ESSENTIAL OMEGA-3™

Fish Oils Without Fish Taste
Ultra-Concentrate of DHA and EPA

NATURAL ORANGE

Dietary Supplement | **360** Easy-to-Swallow Capsules

Andrew Lessman's MAXIMUM ESSENTIAL OMEGA-3 is our highest potency blend of ultra-pure Omega-3s uniquely delivered with NO fishy aftertaste. Our Omega-3s exist in their most active, natural triglyceride form. Since Omega-3s cannot be made by the body, their benefits are only available from cold-water fish or a quality Omega-3 supplement. Research has shown that diets rich in Omega-3s are associated with superior heart, brain, eye, circulatory and general health; yet the American diet delivers alarmingly low levels of these precious fats. Our product delivers an ultra-concentrated blend of **DHA** (Docosahexaenoic Acid), **EPA** (Eicosapentaenoic Acid) and **DPA** (Docosapentaenoic Acid), as well as **SDA** (Stearidonic Acid) from Ahiflower® Oil. Typical formulas focus on EPA, which is less costly to provide, whereas our Omega-3s target vital **DHA**, which is essential for brain, eye and heart structure and function. **Maximum Essential Omega-3** allows you to enjoy all the benefits without the contaminants, stomach upset or fishy aftertaste.
