

## DIRECTIONS

Mix 1 level scoop in 6-8 oz (180-240mL) of cold water, milk or almond milk. Beef and Egg Protein is best enjoyed first thing in the morning and/or just before or immediately after training.

Beef and Egg Protein is a great-tasting, dairy-free protein powder, yielding 25 g of protein per serving. It contains HydroBEEF™, a highly concentrated, pure beef protein, produced through an exclusive proprietary process that allows the protein to be hydrolyzed into more peptides, resulting in easier absorption and assimilation; and 100% pure egg white crystals. This is an ideal protein for those who want the power of beef and eggs to build muscle or for those that are dairy sensitive.
