Turmeric is one of the most well-researched herbs worldwide and has a myriad of health benefits including lowering metabolic inflammation. Turmeric has a unique class of compounds known as curcuminoids. Because curcuminoids are difficult to absorb, **TURMERIC GOLD™** utilizes a specialized turmeric-phosphatidylcholine extract (Meriva®) for enhanced bioavailability.*†

†Not all inflammation is associated with disease states. Inflammation is the body's healthy immune response to life's occasional, normal stressors and is important for optimal health.
