Collagen and Hyaluronic Acid are key components to healthy, youthful looking skin. They carry out separate, but complementary roles in maintaining the health of the skin.

Type I & III Collagen are complex structural proteins that make up approximately 80% of the body's skin! They form a mesh-like framework that gives your skin strength, texture, and shape.*

Hyaluronic Acid is found within the skin's collagen matrix and helps maintain hydration of the deep and superficial dermal layers making your skin appear moist, smooth, and supple.*

With age, the ability of the skin to replace Collagen and Hyaluronic Acid diminishes which contributes to visual signs of aging such as fine lines, wrinkles, skin fragility and dryness.

Liquid Collagen + Hyaluronic Acid

This deep acting formula delivers a broad spectrum of skin and nail restoring nutrients in a delicious one-per-day drink mix supplying 2,500 mg of hydrolyzed type I & III VERISOL® Collagen, 2,500 mcg of beautifying Biotin, nourishing taste-free Bone Broth, and Hyaluronic Acid.*

VERISOL® Type I & III Collagen is a clinically researched preparation of collagen that has been shown to be effective at combating the effects of aging by supplying the building blocks needed to revitalize the skin and nails, while boosting your own internal collagen production.*

Applied Nutrition® is committed to developing science-based products that exceed the highest standards for quality and purity.
