

TriEnza® supports the digestion of food proteins (including gluten, casein and soy), carbohydrates, sugars (including lactose), fats, polyphenols and fiber.† TriEnza includes DPP IV (dipeptidyl peptidase 4) enzyme activity which, when combined with other proteases, aids in the breakdown of caseomorphin (from casein) and gliadomorphin (from gluten).†

Suggested Use: Mix 570 mg (approximately 1/4 teaspoon or slightly heaping scoopful using enclosed scoop) with food or beverage at the beginning of each meal. One dose of 570 mg or 1/4 teaspoon equals 2 capsules of TriEnza. Use care not to inhale enzyme powder. TriEnza may be taken with other Houston Enzymes products.

TriEnza was developed by
Dr. Devin Houston, PhD
Enzyme Biochemist

Do not use if tamper-proof seal is broken. Keep container closed and store at room temperature or in freezer, but do not place in refrigerator due to humid conditions.

Supplement Facts

Serving Size 570 mg (approx. 1/4 tsp)
Servings Per Container about 202

	Amount Per Serving	%DV
Enzyme Blend	528 mg	
Peptidase (with DPP IV)	30,000 HUT	*
DPP IV	600 DPPU	*
Xylanase	16,000 XU	*
Amylase (w diastase)	12,000 DU	*
Diastase	12,000 DP	*
Protease	65,000 HUT	*
Protease 6.0	25,000 HUT	*
Glucoamylase	25 AGU	*
Lactase	1,500 ALU	*
Beta Glucanase	30 BGU	*
Cellulase	900 CU	*
Invertase	500 SU	*
Lipase	500 FIP	*

*Daily value (DV) not established

OTHER INGREDIENTS: Microcrystalline cellulose and medium chain triglyceride powder.
