This product is not intended to diagnose, treat, cure or prevent any disease.

Food intolerances are caused by enzyme deficiencies and can lead to digestive discomfort in both children and adults. Supplementing the diet with specialized enzymes for gluten, lactose, phenol and casein digestion may assist in lessening discomforts common to intolerance.*

Digest Spectrum™ is a unique combination of high-potency enzymes that provides specialized digestive support for individuals who experience intolerance to foods containing gluten, dairy, phenols, vegetables and beans.*

Recommended Use: 1-2 capsules with each meal. More may be taken as needed. Capsules may be opened and contents mixed with food or juice.

Thera-blend™ enzymes are comprised of multiple variants which are blended to work synergistically throughout the broad pH range of the human body.
