Gut Connection® contains 630 mg of clinically researched EpiCor®.

Why?

Supports healthy shift in gut microbiota composition***

Helps maintain the gut lining***

EpiCor® is a whole food fermentate prebiotic that balances and strengthens your gut by boosting its levels of good bacteria to promote health every day.*** Made using a fermented whole food yeast (*Saccharomyces cerevisiae*), it captures a complex array of beneficial nutrients through the process of fermentation. Each daily serving will improve your gut and your health—it's all connected.***

A healthy gut has more than 10 trillion bacteria! Gut Connection® is different because it does not provide probiotics, so you can take it alone or with your favorite probiotic. This allows your body to create its own healthy bacteria.***

▲Based on results from a study using a dynamic model representing GI digestion.
