Caution: For adults only. Not for pregnant or nursing women. Consult physician if taking medications (especially those that may affect bleeding), have a medical condition (including bleeding disorders or ulcers), or are planning to have surgery. Do not take this product if allergic to aspirin. Keep out of reach of children.

White Willow is a shrub with a long history of traditional use. Modern scientific researchers have identified numerous compounds from its bark that contribute to its bioactivity. Of these active compounds, Salicin is best known for its support of the body's healthy response to normal physiological stress. In addition to Salicin, polyphenols and flavonoids have also been found to contribute to its activity. NOW® White Willow Bark has 15% Salicin plus a natural balance of other bioactive compounds that may gently help to temporarily relieve minor pain caused from overexertion and typical everyday stress.*

SUGGESTED USAGE: As a dietary supplement, take 2 capsules 1 to 2 times daily as needed with food.

White Willow Bark

STANDARDIZED EXTRACT

400 mg - 15% Salicin

• **Temporary Relief from Minor Pain of Overexertion***

100 Capsules
A Dietary Supplement
