

Copper is an essential trace mineral. It supports the formation of collagen and connective tissue. It promotes bone, joint, skin, nail and hair health. Copper also assists iron in releasing energy from cells. This formulation provides a patented highly bio-available form of chelated copper.*

†Fully reacted chelates, Albion process patent No.'s. 5,516,925 and 6,716,814

††Solgar's Chelated Copper Tablets are manufactured under license agreements with Albion Laboratories whose patents and pending patents cover the complexing of minerals with pure amino acids.

Carefully Manufactured by:
Solgar, Inc., 500 Willow Tree Road
