Bohemia, NY 11716 U.S.A. © 2015 Nature's Bounty, Inc.

You work hard to take good care of yourself – so when it comes to getting your **fish oil from a trustworthy source, let Nature's Bounty take care of you!**

We **source** our fish oil in an **ecologically friendly** way, **directly from Peru**. We go to Peru because the Peruvian government has **strict standards** and governance on their surrounding waterways, to properly ensure **the protection of the fish**. Since Peruvian fisheries yield to spawning during the summer and winter seasons, fish are vital resources for Peru that they value greatly, and go above and beyond to protect. The fisheries in Peru also comply with **stringent quality regulations**, which ensure that we, at Nature's Bounty, can deliver **premium quality Omega-3 Fish Oil** to our customers.

You can trust that when we source our fish oil, we do our best to **maintain the conservation of marine living resources**. The Marine Research Institute (IMARPE), a recognized world-class authority, works with the Peruvian government to manage the controls of fish stock along their waterways. Small, effective fleets are used in the fishing process; and no facility is allowed to receive fish from vessels without a valid license. **All catches in Peru are carefully reviewed to meet rigorous quality checks**. That's how we know for sure that our **fish oil is the purest, freshest, and most ecologically sourced**.

Our Peruvian fish oil is a premium, superior-quality fish oil for you and your family.
