

WHEY PROTEIN has the highest value in providing branched-chain amino acids, which result in building and retaining muscle tissue. WHEY PROTEIN contains the perfect combination of overall amino acid makeup and in just the right concentrations for optimal performance in the body. It also plays a role as an antioxidant and helps support a healthy immune system. Most importantly, whey protein intake coupled with exercise will result in consistent muscle building.

SUGGESTED USE: Blend one rounded scoop of WHEY PROTEIN with 6-8 oz. (180-236ml) of milk, juice, or other favorite beverage. WHEY PROTEIN can also be blended with fruit, ice and other solid ingredients as desired.

WARNING

If you are pregnant, nursing, have any health condition or are taking any medications, consult your health care practitioner before using this product. **KEEP OUT OF REACH OF CHILDREN.** Store in a cool, dry place. Do not use this product if the safety seal on the bottle is broken.
