

SUGGESTED USAGE: Take 1 softgel 3 times daily, or as directed by your healthcare practitioner.

HOW IT WORKS: CLA Away™ combines the benefits of Acetyl-L-Carnitine, Guarana and Green Tea Extract (GTE) for active people seeking the nutritional support of Conjugated Linoleic Acid (CLA).* CLA is a fatty acid naturally found in beef and dairy products. Acetyl-L-Carnitine is a more bioavailable form of L-Carnitine, which facilitates the transfer of fatty acids across the mitochondrial membrane for cellular energy production.* Guarana supports alertness and, associated with Green Tea, may enhance daily energy expenditure.* GTE contributes numerous bioactive compounds, including Polyphenols and Catechins that have been found to help defend against oxidative stress.* When used as directed, CLA Away™ helps support the increased metabolic demands of active individuals.*

CAUTIONS/INTERACTIONS: Carnitine may interact with anticoagulants and thyroid medications. The need for Carnitine may be increased by some anticonvulsants, some anti-cancer drugs, some anti-HIV drugs, pivalic acid and isotretinoin. If you are taking any of these medications, or if you have diabetes or thyroid disorder, consult your healthcare practitioner before using this product.

Natural color variation may occur in this product.
