RESVERATROL 100[™]

EGCG 100[™]

100 MG RESVERATROL • 100 MG EGCG
THE ESSENCE OF RED WINE AND GREEN TEA

360 Easy-to-Swallow Capsules

Andrew Lessman's RESVERATROL 100 EGCG 100 provides optimum levels of the most beneficial molecules from the world's most well-researched beverages (Red Wine and Green Tea). **Resveratrol** and **EGCG** (Epigallocatechin Gallate) are among nature's most powerfully protective compounds and not surprisingly, continue to be the focus of the most exciting anti-aging research. For centuries, Red Wine has been considered a traditional healthy beverage, but only in recent years has **Resveratrol** been identified as its most important beneficial molecule. Fortunately, **Resveratrol** is now available in a naturally pure, ultra-concentrated form thus making it possible to offer a **Resveratrol** formula where each small capsule delivers the **Resveratrol** content of more than 100 glasses of red wine! **Resveratrol** is a central component in the healthy Mediterranean diet and is thought to be responsible for the "French Paradox", where the French possess far better heart health than would otherwise be expected. Like Red Wine, Green Tea has been considered for centuries as a primary part of the healthy Asian diet. Recently, scientists have established **EGCG** as the compound responsible for Green Tea's wide ranging health benefits. Both **Resveratrol** and **EGCG's** well-researched health benefits have been shown to support the health of virtually all key body systems, organs and tissues, including the heart, brain, liver, breast and prostate tissue to name a few. Best of all, our new **Resveratrol 100 EGCG 100** enables you to enjoy the natural benefits of both of nature's most protective beverages without consuming a single drop of alcohol or caffeine.
