Rev. 1-01

Research shows that healthy DHA levels in mothers during pregnancy and lactation support optimal brain and visual development in babies.* Prenatal DHA provides mood support for mothers before, during, and after pregnancy in small, easy-to-swallow soft gels.*

Also available in strawberry-flavored Prenatal DHA.
Wild caught. Pure. No fishy aftertaste. Friend of the Sea certified.

Every batch of Nordic Naturals fish oils is tested by a third-party certified lab for environmental toxins, including heavy metals. All fish oils are in the triglyceride form and surpass the strictest international standards for purity and freshness. Certificates of Analysis available upon request.

Suggested Use: Two soft gels daily, with food, or as directed by your health care professional or pharmacist.

Store in a cool, dry place, away from sunlight

Do not take if tamper-evident seal is broken or missing

Keep out of the reach of children

Nordic Naturals products are never sold under any store brand

Warning: Consult with your physician before using this product if you are allergic to iodine, use blood thinners, or anticipate surgery.

Research shows that healthy DHA levels in mothers during pregnancy and lactation support optimal brain and visual development in babies.* Prenatal DHA provides mood support for mothers before, during, and after pregnancy in small, easy-to-swallow soft gels.*

The DHA requirement of a developing baby increases dramatically as pregnancy progresses and brain growth accelerates. This fatty acid is concentrated in the brain and retina where it is a critical component of cell membranes. Maternal diet and lifestyle influence the amount of omega-3s that are available to the growing baby. As the official omega-3 of the American Pregnancy Association, Nordic Naturals Prenatal DHA is an exceptionally pure and trusted source of DHA and vitamin D3.

Also available in strawberry-flavored Prenatal DHA.

Wild caught. Pure. No fishy aftertaste. Friend of the Sea certified.

Suggested Use: Two soft gels daily, with food, or as directed by your health care professional or pharmacist.

Guaranteed Purity. Lab Certified.

Every batch of Nordic Naturals fish oils is tested by a third-party certified lab for environmental toxins, including heavy metals. All fish oils are in the triglyceride form and surpass the strictest international standards for purity and freshness. Certificates of Analysis available upon request.

Because purity = safety

Heavy metals, such as mercury, are not the only environmental contaminants found in fish. PCBs are a class of man-made organic chemicals that pose risks to human health and the environment. Despite strong restrictions, PCBs persist in the environment and are found in trace amounts across our food supply. By selectively choosing small fish naturally low in toxins, and carefully removing contaminants, Nordic Naturals delivers omega-3 oils with guaranteed purity.

Nordic Naturals Products Surpass Strict Standards for PCBs

† Global Organization for EPA and DHA Omega-3s
†† Based on average PCB test results
