organic Dandelion Leaf & Root

late spring all the

Dandelion has been a treasured berb for thousands of years. Some of our

favorite dandelion is sustainably harvested from the wild meadows of southern and eastern Europe Dandelion roots are harvested in the early spring and late fall when the plant is dormant and has stored energy in the root The leaves are harvested from

way through summer. when the plant's energy has moved above ground. Collecting according to this seasonal schedule helps us ensure that this tea will support kidney function and healthy digestion."
